25 YEAR RE-REVIEW

SECRET 25X1 -2-5. 25X1 the 40 signal women auxiliaries stationed there had been discharged on 15 April 1953 on the ground that delivery of signal equipment was not to be expected in the foreseeable future. 6. Training activities of the troops stationed at the castle included street combat practices in Germendorf involving 350 to 400 soldiers wearing crimson equallets and red-bordered black epaulets and 3 T-34 tanks and 1 BA-64 armored scout car at 10:30 p.m. on 27 April; practices of units of company strength rotating for 2 hours on 20 mortars between 8 a.m. and noon on 25 April; infantry training by KVP officers and NCOs of about 150 FDJ members at the athletic field behind the castle, beginning 5:30 p.m. on the same day; leaving of 10 canvas-covered trucks carrying between 250 and 300 soldiers wearing red-bordered black epaulets and towing 7 x 85-mm AA guns which were emplaced on the edge of the woods between Sommerswalde and Schwante and were ready for firing 105 minutes after leaving the installation at 7:15 a.m. on 2 May; training on 15 x 80-nm mortars of about 120 soldiers in the park of the castle between 8 a.m. and noon on 9 May; training of about 150 soldiers on 7 T-34 tanks 25X1 a.m. and noon on 16 May; AAA practice with 6 x 85-mm AA guns emplaced in the Neuholland Forest and involving between 320 to 350 soldiers wearing red-bordered black epaulets at 2 p.m. on 23 May; march with full field pack via Zehlendorf, Liebenwalde, Freienhagen and Sachsenhausen of about 450 soldiers wearing rei--bordered black epaulets and armed with small arms and following a 25X1 scout car, 3 motorcycles and 4 trucks, beginning 6:30 a.m. on 26 May; and formation drill at company level with full field pack daily at the athletic field from 28 to 30 May. The latter training activity was performed in the presence of Colonel Leverents, one VP lieutenant colonel, 1 Soviet lieutenant colonel and 2 Soviet majors and allegedly was a final inspection. 4 7. Exercises which, according to a KVP officer, were conducted by the troops stationed at the castle included a night exercise in the area of Hohenbruch-Teerofen which began at 10 p.m. on 23 April and involved, in addition to 3 companies wearing red-bordered black epaulets from the castle, 4 companies of various branches of service from the Sachsenhausen concentration camp, a large number of civilians of the Sport and Technik organization, 5 T-34 tanks and 40 motorcycles and a night exercise in the Baerenklau-Vehlefanz-Schwante area on 9 May which involved 4 infantry companies and 4 T-34 tanks. 4 8. At night on 28 April, a night exercise of VP stationed at the Sachsenhausen concentration camp was conducted in the area of Lehnitz-Lock and Schwachtenhagen and involved an estimated 1,500 soldiers of various branches of service who were armed with machine guns and rifles and supported by six T-34 tanks. Some of tanks took up cover on the edge of the woods. In the morning on 17 May, 9 T-34 tanks and 17 trucks carrying a total of about 500 soldiers with red service color left the Sachsenhausen concentration camp and moved to Neubrandenburg via Loewenberg, Gransee, Fuerstenberg and Neustrelitz and entered the Soviet occupied barracks installation about 1 km northeast of the town. The tanks included 25X1 An officer stationed at the concentration camp stated that two companies moved to the Fliegerschule in Kreuzbruch near Liebenwalde. 5 25X1 afternoon on 29 May, 14 trucks carrying about 400 soldiers wearing blue-bordered black epaulets arrived at the concentration camp. This service color was observed contained small arms for the first time. Ammunition boxes 25X1 ammunition, were trailed from 10 boxcars on two trucks at the siding of the camp on the same day. a VP transport unit equipped with 35 new 3.5-ton trucks 25X1 moved into Alte Zeppelinhalle between Schuetzen Strasse and the Sachsenhausen rail road station on 9 May.

	SECRET	
	<b>-3</b>	
10.	From 20 April to 3 June 1953, training was regularly performed on 16 to 18 about 80-mm guns at the Sachsenhausen concentration camp. About 60 IM who were a letter A on their black epaulets were daily picked up at the castle and trucked to the training grounds to participate in the training on guns.	25 <b>X</b> 1
11.	A young VP stated that several units transferred from the concentration camp to the castle in late May 1953. Civilians of from 16 to 18 years of age allegedly continuously arrived at the camp. 8	25X1
12.	centration camp near Oranienburg was still occupied by about 2,000 men. The troops received training in the field and practiced with machine guns and mortars. They were red-bordered black, yellow-bordered black, blue-boriered	
	black, blue and red epaulets.	25X1
2.	struction companies of the AAA officers school were temporarily transferred to the area of Pasewalk and on Rusgen Island of the area of Armee Gruppe Nord for the execution of firing practice. The officer candidates attached to Gera are probably scheduled to attend a technical course and a local ordnance school.	
3.	Comment. Induction dates have repeatedly been postponed. The recruiting campaign of volunteers (professional soldiers) is continuing. Colonel Lewerenz was previously reported as commanding officer of the AAA officers school.	
4.	Comment. The information indicates that the training activity includes both the training of officer candidates of the AAA school and the training of the cadre division in Oranienburg. The information on training of FDI members and members of the Sport und Technik organization shows that the SED Central Committee order on premilitary training which was meanwhile vacated had already been in the process of execution.	S
5.	Comment. An air strip of the former German Air Force which is no long used is located in Kreuzbruch. A glider school of the Sport und Technik organization was previously reported located in Liebenwalde.	er
6.	Comment. The blue-bordered black epaulets are indicative of engineers and armored command. There is the possibility that the unit stationed at Cranienburg may be increased. This cadre division which is subordinate direly to the Ministry of the Interior is to be brought to full strength, a deserter stated.	
7	Comment. The guns observed were probably 85-mm AA guns.	
8		
. 9	Comment. The service colors observed indicate that the unit consists
